Version Free Â· Download And finally
disconnect the USB and connect to another
usb port. As you have answered in the
comment as well, the only advantage for
the Windows PC is that it can check and
update the firmware of the mobile phone

more easily. The problem here is that in the future Huawei will offer the software updates through their website, and not USB. These updates can be found and applied directly from the PC to the mobile phone. The only advantage for the Windows PC is that it can check and update the firmware of the mobile phone more easily. The problem here is that in the future Huawei will offer the software updates through their website, and not USB. These updates can be found and
