Steven Slate Trigger 2 Download

Steven Slate Trigger 2 Platinum Drum Replacement Software Steven Slate Drums is one of the premiere drum sample libraries on the market today. The producer of many popular commercial tracks (J.B. Sledge, Eve, The Cataracs, The Temptations) and a recording engineer himself, Steven Slate has created a reference of drums for producers. TRIGGER 2 TRIGGER 2 Platinum is the first upgrade to TRIGGER since its release in 2010. With release of TRIGGER 2, Steven Slate Drums built in the new LEAKAGE & NOTES technology. LEAKAGE is a new edge sample enhancement added to the Slate Sound engine which is similar to what was seen in HUSH from Steven Slate Drums in 2010. LEAKAGE helps to separate acoustic and dry drum samples more clearly for editing and tracking in the Slate Sound Engine. The Slate Sound Engine also allows users to slowly turn up LEAKAGE to mix and augment their drum takes. Now you can use the SLATE X! memory card or your MacBook Air, iPad or iPhone as a . PRESENCE PRESENCE 2 is a Drum Replacement Software from Steven Slate Drums called the "Presence Engine". This engine allows you to replace your recorded drums by placing any of the 16,000+ drum samples inside the Presence Engine. Most of the samples in PRESENCE 2 are also featured in TRIGGER 2. With PRESENCE you can record, process and replace drums in your mix anywhere you like with no latency or setting up your audio interface, its all done inside the software itself. . EXTENSIONS ASSIST: With the ASSIST function you can easily fade in your drum samples. Simply play the drum fill in the ASSIST tab, hit the space bar to toggle on/off the assist function, then adjust the volume of the ASSIST tab with the volume wheel. . BOOST: If you're looking to replace multiple drums from your drum set, using BOOST gives you the option to easily replace drums with the preset value of a previously recorded drum track. The options for settings are EXT_PIPE_RATE, MONO_PIPE_RATE, REP_PIPE_RATE and FILL_PIPE_RATE. There are preset values for each of these settings which are determined by the individual drum mix recorded by Steven Slate Drums. . CONNECT: The CON 3da54e8ca3
