"There is a lot of new here. There are bosses, semi-dynamic dungeons, a revamped equipment system, and more. These changes are also applied to the equipment interface, and the art is a definite step up from what we have seen in the past. The combination of art and depth is unparalleled, and the game is definitely worth checking out." GameXplain "the relatively few instances where the camera gets in the way of the art design, it does not detract from the overall experience.
