Holoswitch is great little program that will let you run all kinds of applications from VR headset. This little program lets you use your Phone's SMS and have all your texts, apps, and games come to you without having to use any other program to do it. You can do it completely from your phone no computer required. Imagine having all your important phone calls to your VR headset no more need for an audio cord. If you are interested, read on to see the features Holoswitch has and how they can help you with your VR headset. It does more than just have all your VR apps come to you If you do not already have Holoswitch, you can Download it for free. After downloading Holoswitch, it starts you off with a really simple interface on your VR headset. You just need to simply hit the color icon in the top right hand corner of your VR headset to open the setup screen of Holoswitch. An asterisk will appear on your VR headset screen and now, you have no limit of what you can do with Holoswitch. You can now take in everything from your smartphone, Xbox, PlayStation, PC, Android device, laptop, or any other device you have connected to your VR headset with Holoswitch. When you click on a Holoswitch application icon, it will automatically open on your headset display. If you want, you can also use your smartphone, Xbox, Playstion, Laptop, or any other device to run VR games. From Holoswitch, you can access all your games or apps. It keeps track of all your settings and what you are currently doing so you do not have to reconfigure them. To get to the Holoswitch applications you want to open, you can hit the Holoswitch icon in the top right hand corner of your VR headset. All your phone apps, games, texts, and other app notifications are automatically run through Holoswitch. When you receive a text message, Holoswitch will pop up your phone app so you can read it. If you have an incoming voice call, you will see the phone app pop up. If you have an email from one of your VR headset apps, you will see the pop up. If you have an Instagram message, you will see the pop up. If you get a message from your Facebook app

What's new:

What is it about fishing? The classic sport of fishing? Of course! Why else would it have been my first Launchday title if it wasn't. But there's so much more to fishing than just the simple act of casting your line around a lake or pond. Whether you enjoy the sport for the outdoors and the freedom that it gives you, or if you're just a big fan of how all the gadgets fit together, I guarantee there's a VR fishing simulator that's right for you. Minimum requirements To run this fishing experience, you will need a PC with an Intel CPU 2Ghz or faster and 8GB or more system RAM memory. If you've installed your own graphics card, you'll need at least Windows 7 or Windows 8 (although I've tested the game on Windows 10 as well). The entire experience runs and renders on a graphics card with 128MB or more of on board video memory. If you are experiencing graphics issues with odd glitches in your animation, you will also need a modern or DirectX 11 graphics card. Additionally, if you are experiencing Lag issues in the fishing app, you will also require a decent connection to the internet. Great fishing starts with the right tools Whether you're just getting started with fishing or if you've already been doing it for over a decade, you may have never pondered how your fishing equipment is stored or how you would store all of your electronics when you're outdoors fishing. Fishing Tackle Box The experience starts you off by teaching you how to store all of your fishing essentials. From your fishing rod, to your hand-fished bobber, there is a full set of fishing tackle just waiting for you. Mechanism Spare Key A spare mechanism will always come in handy, whether you're repairing a rod or just replacing a broken one. Toggle the switch on the Mechanism Spare Key and place it in your Tackle Box. Keep one at home and store the spare one in your Tackle Box. Fishing Rod A fishing rod is only as good as the twine, a fish hook, a bobber and a line. After that, it's all about the fish you catch. Rods are pricey, so if you want to play with different rods, you can do that too. Fishing Rod Grip Turn your Fishing Rod Grip to the Left or to the right to match the way you want to hold your rod

The King's Bird is a platform game that is about befriending animals to help you get from point A to B. The game features a unique platforming system that incorporates beautiful and familiar environments. You are tasked with rescuing, befriending and training these winged animals. With a few of the animals to choose from, players will face a variety of challenges. Play as the Bird of Prey and save the day. For more info: How far would you go to save the planet?
